FOR IMMEDIATE RELEASE

QMI Names Mitchell Morris Manager of Service

ITASCA, Ill., March 25, 2008 — QMI, the largest manufacturer of rolling shutters for security and hurricane protection in North America, announced that Mitchell Morris has joined the company as Manager of Service.

Morris joins QMI from Gallant Companies, a leading general contractor and facilities services company with a specialty in large retail customers, where he was Director of Facilities. Prior to Gallant Companies, Morris worked at Retail Project Managers Inc., a specialty services provider for the retail marketplace.

In his new role, Morris will lead the QMI service department to introduce process improvements and customer-focused initiatives that elevate service levels provided to QMI's retail customer base.

"In today's highly competitive marketplace, it is no longer good enough to provide 'good service,'" said Morris. "We must elevate service to new levels, breaking through our customers' expectations to lead service excellence."

Jim Miller, QMI president and CEO, said, "Mitch's leadership skills combined with his background in facilities, process improvement and business development make him an excellent choice to direct our efforts in providing top-tier service. I am confident he will continue building our service efforts to complement our very successful manufacturing operations."

Morris received his education from the Project Management Institute and Illinois Wesleyan University. He is an active participant in many professional organizations, including International Facility Management Association (IFMA), National Retail Federation (NRF), American Society for Industrial Security-International (ASIS) and Professional Retail Store Maintenance Association (PRSM).
